
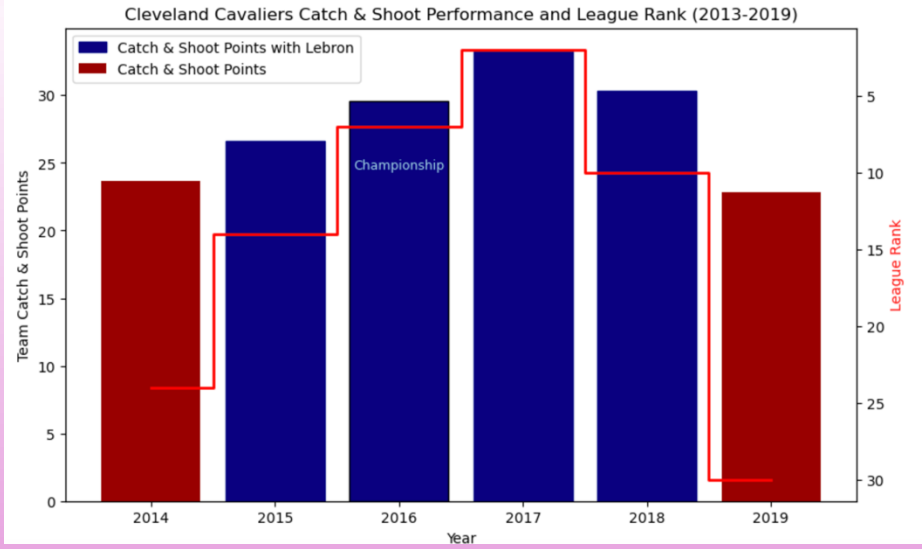
Important to note

Graph on left:

- Lebron led this 2007 team to the finals
- His team ranked 4th in defensive rating
- His team excelled in three point shooting
- Lebron was only 22 years old in 2007

Graph on right:

- Trend is clear, Lebron will get his team more catch and shoot opportunities
- Lebron departed Cleveland in 2019 and they went to dead last in the league in catch and shoot performance

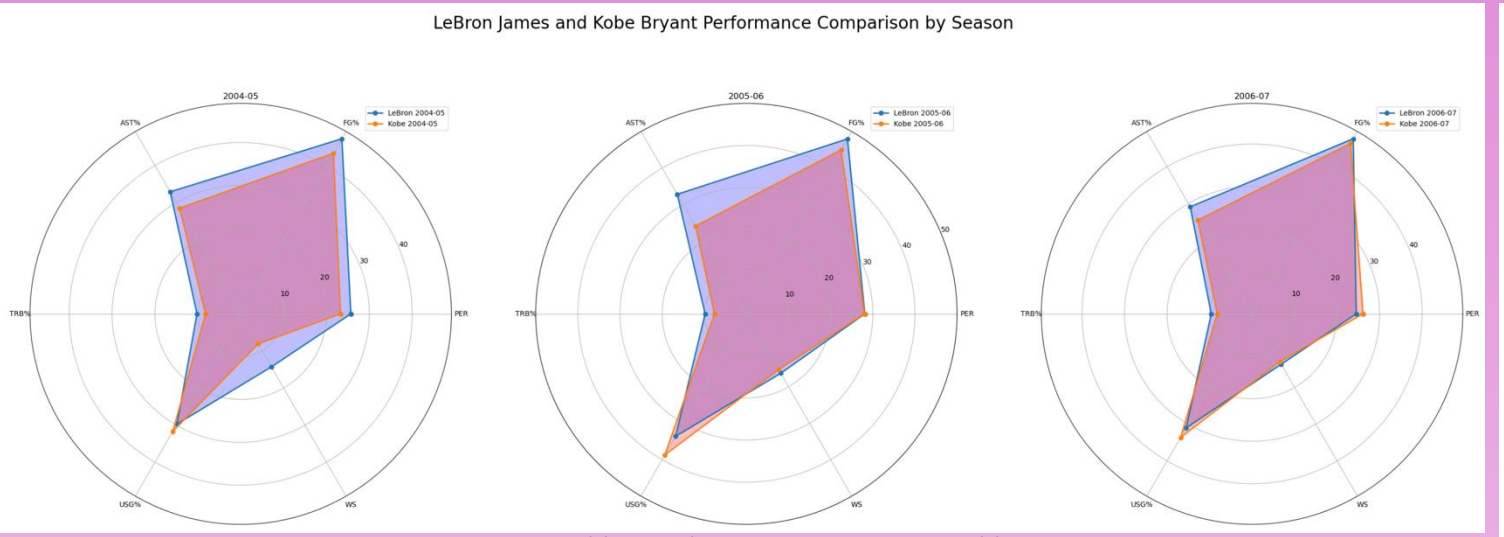


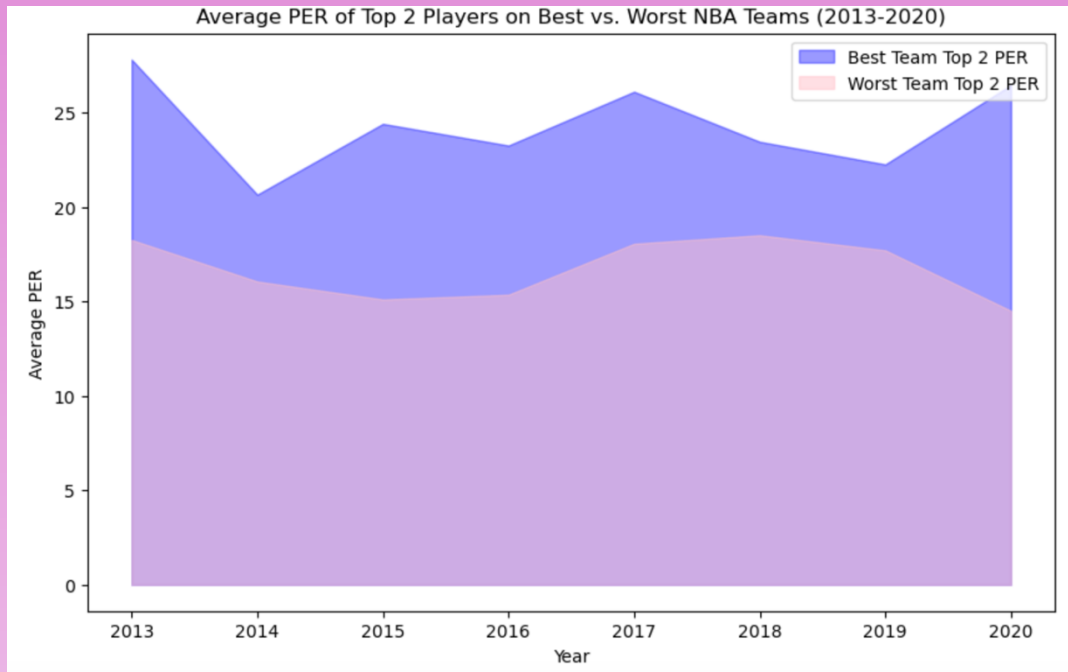
Impact of Individual Contributions on Team Success

Lebron James Edition (G.O.A.T)

What Superstar Player Would You Rather Have on Your Team? Kobe or Lebron?

Performance Efficiency Rating (PER) is a significant contributor to a team's success, but no superstar can win it all single-handedly; a formidable duo is essential.





PER (Player Efficiency Rating): Measures overall player efficiency.
TS% (True Shooting Percentage): Accounts for field goals, 3-point field goals, and free throws.
AST% (Assist Percentage): The percentage of team field goals a player assisted while he was on the floor.
TRB% (Total Rebound Percentage): The percentage of total rebounds a player obtained while he was on the floor.
USG% (Usage Rate): Measures what percentage of team plays a player was involved in while on the floor.
WS (Win Share): An estimate of the number of wins contributed by a player.
